Dear Dr. Lederberg:

Thank you for your letter of May 26th. With regard to the questions you raise, I may say that my feeling is that we ought to make this Volume as self-contained as possible. In harmony with that idea I would recommend illustrations of your cytological preparations, as well as a discussion of cytological results reported by others; and I should favor including a reasonable coverage of the method of your work.

I have not had estimates from enough of the contributors to the Volume to get a satisfactory idea of its probable size, but I doubt if it will go over 250 pages; and it may be smaller than that. I should hope that it could be put on the market for somewhere around \$4.00, but of course I cannot anticipate the final result of the publication effort.

Very sincerely yours,

D. H. Wenrich
